EGA INTERNATIONAL SMALL CAP EQUITY STRATEGY

Second Quarter 2024

Evolution Global Advisors

EGA is an independent, 100% employee-owned boutique asset manager specializing in developed and emerging markets international small cap equity. EGA is an evolved amalgamation that stems from what we have learned across market cycles building institutional businesses over our decades long careers. In founding EGA, we enhanced portfolio construction techniques and risk management, created a significant alignment of interests with clients and among the partners, implemented limits on assets via capacity constraints, and focused on culture.

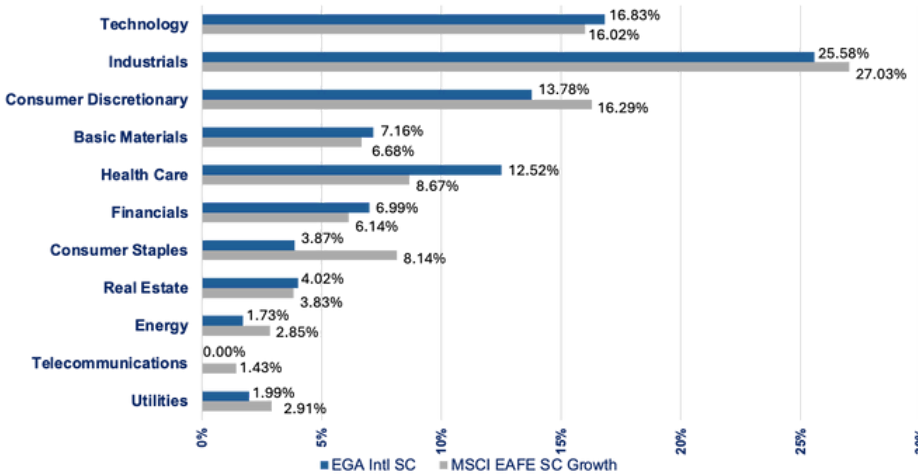

Investment Philosophy

We believe that earnings growth drives stock prices. We identify opportunities where a company is undergoing positive fundamental change, often underestimated by investors in terms of magnitude and/or duration. We believe that stock picking generates alpha, portfolio construction amplifies alpha, and risk management protects alpha.

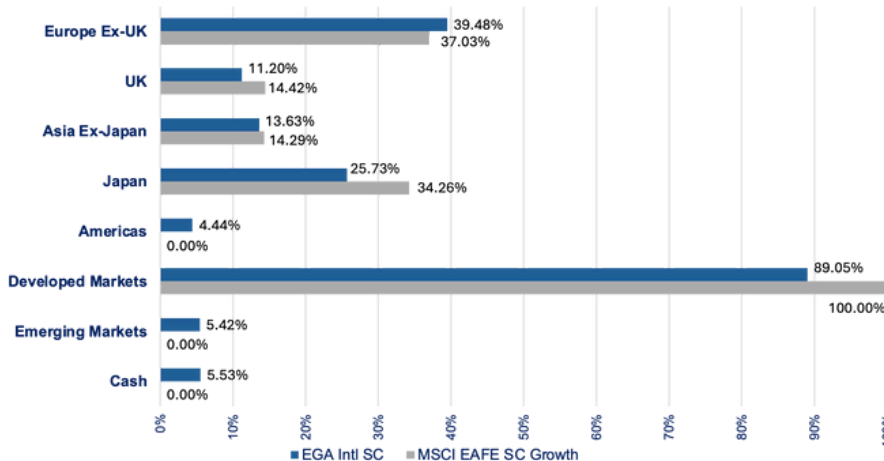

Investment Process

EGA employs an actively managed, bottom-up fundamental research approach, focusing on companies with superior earnings growth potential, resulting in a high-conviction portfolio of approximately 40-60 stocks. Our research processes focuses on positive fundamental changes, their sustainability, and associated risks. We aim to achieve long-term sustainable alpha by generating excess returns in bull markets and protecting it in bear markets with clearly defined risk controls, continuously monitored in a systematic manner.

Important Disclosures

Source of data: Evolution Global Advisors, LLC, MSCI and Bloomberg

Evolution Global Advisors, LLC ("EGA") is an investment adviser registered with the California Department of Financial Protection and Innovation; however, such registration does not imply a certain level of skill or training and no inference to the contrary should be made. Prior to March 11, 2022, the firm was previously known as Spectrum Global Advisors, LLC ("SGA").

The International Small Cap Equity Strategy (the "Strategy") composite consists of discretionary accounts with an account minimum of US \$250,000. The Strategy is implemented by EGA. Investments are typically made in small- and mid-cap companies, which involve a higher degree of risk and volatility than investments in large-cap companies. Most investments are in non-U.S. companies in developed and emerging markets, which involve risks in addition to those ordinarily associated with investing in domestic securities, including the potentially negative effects of currency fluctuation, political and economic developments, foreign taxation and differences in auditing and other financial standards. These risks are magnified in emerging markets. The investment process may change over time. The characteristics set forth above are intended as a general illustration of some of the criteria EGA considers in selecting securities for the Strategy. There is no guarantee that investment objectives will be achieved.

This fact sheet is being provided for informational purposes only and should not be considered investment advice or a recommendation to buy or sell any types of securities. No investment decision should be made based solely on the information provided herein. All investments involve risk, including loss of principal invested. The Strategy and investments referenced may not be suitable for all investors as the appropriateness of a particular investment or strategy will depend on an investor's individual circumstances and objectives. This material does not provide individually tailored investment advice. It has been prepared without regard to the individual financial circumstances and objectives of persons who receive it. The information contained herein is based on internal research derived from various sources. While not guaranteed as to accuracy or completeness, some of the information has been obtained from sources we believe to be reliable. Opinions expressed herein are subject to change without notice. EGA, or one or more of its officers and/or employees, may have a position in the securities held by clients and may purchase or sell such securities from time to time.

EGA claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. Past performance does not guarantee future returns and other individual accounts may vary.

Actual performance and statistical data shown from January 1, 2018 to June 30, 2024 is based on a GIPS compliant composite, which consisted of 1 representative account for this Strategy from January 1, 2018 through January 31, 2019 and was held at Fidelity for the first three quarters of 2018 and transitioned to Interactive Brokers in the fourth quarter. EGA has been independently verified through December 31, 2023. The strategy's inception date is January 1, 2018, and all accounts in the composite are fully discretionary.

Actual performance returns shown for the Strategy are from January 1, 2018 through June 30, 2024; are calculated net of an actual 0.40% management fee (except for 2018 when net performance was calculated using model fees), performance fee, transaction costs, and includes the reinvestment of dividends and other earnings. The performance fee is 20% of all excess returns as compared to the MSCI EAFE Small Cap Index Net (regardless of whether the absolute return is positive or negative). Thereafter, Performance Fees shall only be assessed if the excess returns for a given quarter exceed the previous "high water mark." MSCI EAFE Small Cap Growth Net Index and MSCI EAFE Small Cap Net Index returns are shown gross of any management fees.

Portfolio Country, Sector and Top 10 holdings are derived from a representative account following the Evolution Global Advisors, LLC International Small Cap strategy. Individual client accounts may differ from the representative accounts. Portfolio holdings are subject to risks and may change at any time. References to specific securities should not be construed as recommendations by the Advisor. The ICB classification scheme is used.

Characteristics are derived from a representative account following the Evolution Global Advisors, LLC International Small Cap strategy. Individual client accounts may differ from the representative accounts. Portfolio holdings are subject to risks and may change at any time. Figures displayed are weighted median calculations. All estimates are using the Bloomberg Estimated consensus mean. Market Cap uses total shares outstanding. Sales and EPS Growth is calculated by comparing the 2024 estimate to the actual reported figure for 2023. The P/E is calculated by taking the security price as of the end of the most recent quarter and dividing it by the 2024 estimated EPS. The 3 month percent change in the consensus mean Current Fiscal Year EPS estimate is calculated by taking this EPS estimate as of quarter-end and dividing it by that same estimate 3 months ago. The Beta, Annualized Standard Deviation, Upside Capture and Downside Capture ratios are all calculated since inception of 1/1/18.
